

The Outbreak Response Plan for The Atrium at Navesink Harbor, a Springpoint community, is based upon national and state standards and developed in consultation with our Corporate Medical Director, Corporate Clinical Department and Community Leadership.

Communication Protocol

Communication and notification of staff, residents and families in the event of an outbreak as

- Notification standards mandated by the NJ DOH
- Outbreak Communication with Family Members Policy

Testing Capacity

A commercial laboratory will conduct the tests with a 24-48 hour turnaround time, will provide collection materials, collect and process the specimen.

- Skilled Nursing Community Wide Testing Policy
- Assisted Living Facility Wide Testing Policy
- COVID-19 Employee Test Results Policy

Reporting Standards

The community will report outbreaks to public health officials in accordance with applicable laws and regulations.

Admission, Cohorting, Isolation, and Discharge of Residents

Our protocol for isolating and cohorting infected and Persons under Investigation (PUI) are described in the following policies and guidelines:
